

£150 Category

“IT WAS DIFFICULT TO SQUEEZE IN A WAX FROM SWISSVAX AS SOME CAN COST UP TO £1700! WE’VE SURROUNDED THE WAX WITH SOLID PERFORMERS, ALTHOUGH A LOT OF THE CHOICE CUSTOMERS MAKE COMES DOWN TO PERSONAL PREFERENCE AND BRAND LOYALTY. OTHER HIGHLY RECOMMENDED RANGES THAT DIDN’T MAKE THE LIST WOULD INCLUDE THE R222 RANGE AND THE AQUA GLEAM DE-IONISING FILTER.”

Meguiar’s NXT Car Wash

You may already be familiar with Meguiar’s shampoo range, but NXT Car Wash is pH balanced and wax friendly so future washes won’t be detrimental to the products you have applied. It will loosen and emulsify the grime build-up on the bodywork of your BMW and the water softeners will help achieve a spot-free finish – which is great news for areas of the UK that suffer from hard water.

Size: 473 ml
Price: £6.99

Swissvax Onyx Wax

Using our top-end budget permitted the inclusion of Swissvax’s Onyx Wax. Containing 30 per cent of yellow Brazilian carnauba wax, it is said to produce a brilliant, streak-free shine. Ideal for spring and summer use the sunshine will really bring an extra warm glow from the carnauba. It comes complete with a presentation bag.

Size: 200ml
Price: £53.00

ValetPRO Bilberry Safe Wheel Cleaner

ValetPRO’s Bilberry Safe Wheel Cleaner is ideal for any BMW that undergoes the toils of daily use such as a high build up of brake dust and general road grime. It can be used neat for really tough, baked on dirt, or diluted up to 10:1 for maintenance cleaning. It’s biodegradable and thanks to the thick formula, it’s less prone to dry out like some wheel cleaners.

Size: 1-litre
Price: £9.50

Gtechniq ClearVision Glass Coat

During our visit we were introduced to Gtechniq’s ClearVision Glass Coat. Apparently one application lasts up to five months and the Nanotechnology can clear water from the screen at speeds as low as 30 mph, and it’s a favourite with the WRC teams. It will keep windows cleaner for longer and it makes them far easier to dry during the regular wash, where the water will simply bead off.

Size: 100 ml
Price: £10.95

Poorboy’s Wheel Sealant

If you have just had a set of wheels refurbished, then applying Poorboy’s Wheel Sealant will protect the surface from brake dust, not to mention making future cleaning a doddle. The barrier it forms will also bead off water, reducing the chances of water marks.

Size: 8oz
Price: £12.75
